UNIVERSITY OF ALASKA FAIRBANKS

COLLEGE OF FISHERIES AND OCEAN SCIENCES

Established in 1960 as the legislatively mandated Institute of Marine Science, the College of Fisheries and Ocean Sciences has grown to become one of the largest and most geographically diverse academic and research organizations in the state of Alaska.

centers, laboratories and institutes located throughout the state. We also have the national responsibility of operating the Global Class ice-capable research vessel Sikuliaq, which is homeported in Seward.

While our college has a strong focus on Arctic issues, faculty and students study inland waters, coastal systems and deep ocean regions from the Arctic to the Antarctic.
