Joshua Greenberg, Kara Axx, Carla Browning, Cameron Wohlford, Doug Schrage, Holly Beamon, Gary Newman, Mark Oldmixon

1.

The committee engaged in a discussion about problems with OHVs on campus and the current UAF policy. A key question is whether the problems with OHVs is due, at least in part, to deficiencies in the current UAF policy or whether it is an enforcement issue. UAF Police Chief Catron will be invited to the next meeting to inform the committee of law enforcement s perspective. The MPC chair will contact the UAF Farm Manager to learn if they believe there is a problem with OHV vehicles on the farm fields. There was also discussion about other remedies including more effective communication of the UAF policy to the public. Carla offered to help develop a communication plan. However, the consensus was that any communication plan should be delayed until it is determined whether the current policy is in need of refinement. Nathan noted that there are a limited set of common access points to campus where signage might be effective in educatio

their efforts and the MPC chair will bring this issue to the Chancellor for his thoughts regarding this matter.

No report.

The MPC chair noted that the UAF Foundation is going forward with a naming campaign and the Chancellor is soliciting out-of-the box naming opportunities from committee members.
