## What Are the Reporting Requirements for the Inclusion Across the Lifespan Policy?

The Inclusion Across the Lifespan policy requires submission of de-identified individual-level participant data, including participant age at enrollment, in progress reports.

Wondering how to provide individual-level inclusion data? Use the <u>template</u> <u>file</u> provided on the Inclusion Enrollment Report in the Human Subjects System. The .csv file template allows you to provide the required data and then aggregates the summary data in the inclusion enrollment report.

. The categories set in the columns ; the data for each participant can be entered on rows. For more information on how to use the template, check the instructions available in the <a href="HSS Online Help">HSS Online Help</a>, or go to the instructional video.

For more FAQs on the Inclusion Across the Lifespan policy, see the <u>FAQ</u> page.
